SCREEN-FREE FUN

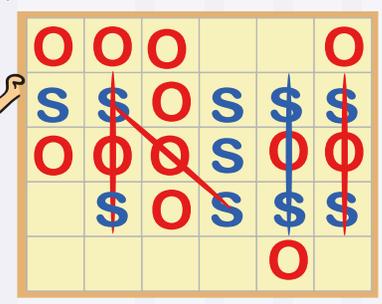

When your parents were little, there was no such thing as smartphones with video games. If they wanted to play a game it was simple: find a pencil, a scrap of paper and a friend. If you need a short diversion after the assembly is over or on the way home, try this: put your device away, pick a friend, and play some of these classic screen-free games from the 1990s. (Just don't do these during the program.)

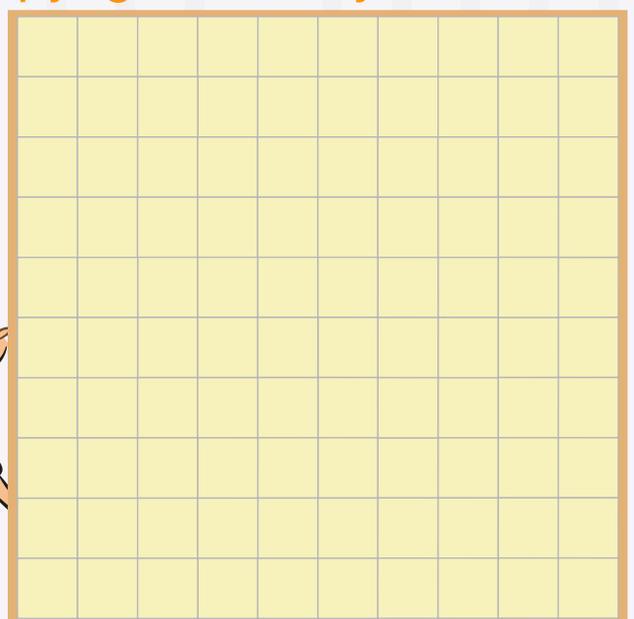

BONUS HACK!: Meet someone new and ask him/her to play with you. Have fun!

S.O.S.

Take turns drawing either an 'S' or an 'O' (either one). Try making 'SOS', horizontally, vertically, or diagonally. NOTE: You only get to draw one letter on your turn, so make sure you don't leave an opportunity for your opponent to beat you to it. For each 'SOS' that you make, add a tally mark. The game is over when the entire grid is filled.
